## Safeguarding

### What are the risks of social media for children?

#### Sharing their location

Many apps and games give you the option to share your location. You should help children think about how and when they're sharing it. Some of the ways they may be likely to share location include:

- tagging photos with the geo-location
- checking into venues
- sharing journeys
- location settings on your child's device
- sharing images or videos that contain street names etc.

If shared publicly, their location could be seen by someone they don't know. People could find out where they live or go to school, allowing an accurate picture of their daily routine to be built up.

All these things increase risk to children, of cyberbullying, stalking or unwanted contact (from friends or others) or becoming a target.

### Prayer of the Week

Heavenly Father,

Thank you for the privilege of service

We thank you for the children and families in our school and pray that we may keep them ever central to our thinking.

We pray that you would grant us wisdom and insight and pray that you would grant us courage in our challenges and compassion in our listening.

Please Lord we pray for your guidance and vision in all that we do today.

We pray for your grace and love in how we do it.

We pray your blessing on our thoughts, our discussions, and our decision, and Lord we pray your blessing on every child who we serve.

Through Jesus Christ our Lord

Amen

Mr. Chuard

Deputy Headteacher
