Safeguarding

What are the risks of social media for children?

Oversharing:

Children and young people can sometimes feel pressure to overshare online. Remind them that they shouldn't share private things, such as:

- Personal information like names, phones numbers, links to other social media accounts or their school
- Live or frequent locations
- Other people's personal information
- Links to join private groups chats
- Photos of themselves
- Photos of their body, such as sexual photos or videos

Explain to your child that, if someone starts asking them other questions, or suggests that they speak on a different messaging platform, they should come and tell you.
